BUILDING STATISTICS - TASMANIA - DECEMBER QUARTER, 1953.

The Deputy Commonwealth Statistician (Mr. J.C. Stephen) has made available the following particulars of Building Statistics for the quarter ended 31st December, 1953, together with comparable data for preceding periods.

1. DEFINITIONS OF TERMS USED.

A statement of definitions of terms used will be found on page 11.

2. SUMMARY FOR QUARTER ENDED 31ST DECEMBER, 1953.

Statistics of building operations for the quarter ended December, 1953, show that:-

1. The number of houses commenced was considerably lower than in the previous quarter whilst the number completed increased by 53 (see table page 3).
2. The value of new buildings (other than houses) commenced was about the same as in September quarter whilst the value of those completed declined by £183,000 or 24.2 per cent. (See table on page 7).
3. The value of work done on all new buildings (including houses) during December quarter 1953 decreased by £432,000 or 15.5 per cent and with the exception of March quarter 1953 was the lowest recorded since this information was first collected in September Quarter 1951.

(a) When completed, excluding cost of land on which building is erected.

(b) Converted army huts excluded.

(c) Number indicates number of individual flats provided as new buildings.

Persons employed on jobs as at end of December, 1953, as reported by builders, are shown in various categories in the following table. Comparative details for earlier periods will be found on Page 10.

PERSONS (a) ACTUALLY WORKING ON JOBS CARRIED OUT BY BUILDERS OF NEW BUILDINGS IN TASMANIA AS AT 31ST DECEMBER, 1953.

Grade of Occupation	No.	Type of Occupation	No.	Work Engaged on.	No.
Contractors	806	Carpenters	2,677	New Buildings	
Sub-Contractors	551	Bricklayers	361	Houses	2,708
Wage Earners	4,009	Painters	345	Other New Buildings	1,480
		Electricians	167	Additions & Alterations (b)	
		Plumbers	267	Houses	475
		Builders		Other Buildings	363
		Labourers	955	Repairs & Maintenance (b)	340
		Others	594		
<u>Total:</u>	<u>5,366</u>	<u>Total:</u>	<u>5,366</u>	<u>Total:</u>	<u>5,366</u>

(a) Includes estimate for persons working on owner-built jobs;

(b) Excludes principals and their employees engaged solely on alterations, additions and maintenance work.

3. NEW HOUSES.

1. NEW HOUSES COMPLETED:

During the quarter ended 31st December 1953, 661 new houses were completed compared with 608 in September quarter and 718 in the June quarter 1953. The number of completions in the December quarter in preceding years were 1945 - 113; 1946 - 247; 1947 - 392; 1948 - 564; 1949 - 655; 1950 - 870; 1951 - 1,336 and 1952 - 983.

The 661 new houses completed during December quarter 1953 comprised 103 brick, concrete etc. 43 brick, concrete etc., veneer, 396 wood, 93 prefabricated wood and 26 fibro-cement.

During the quarter 6 new dwellings were provided by the construction of flats and shops with dwellings.

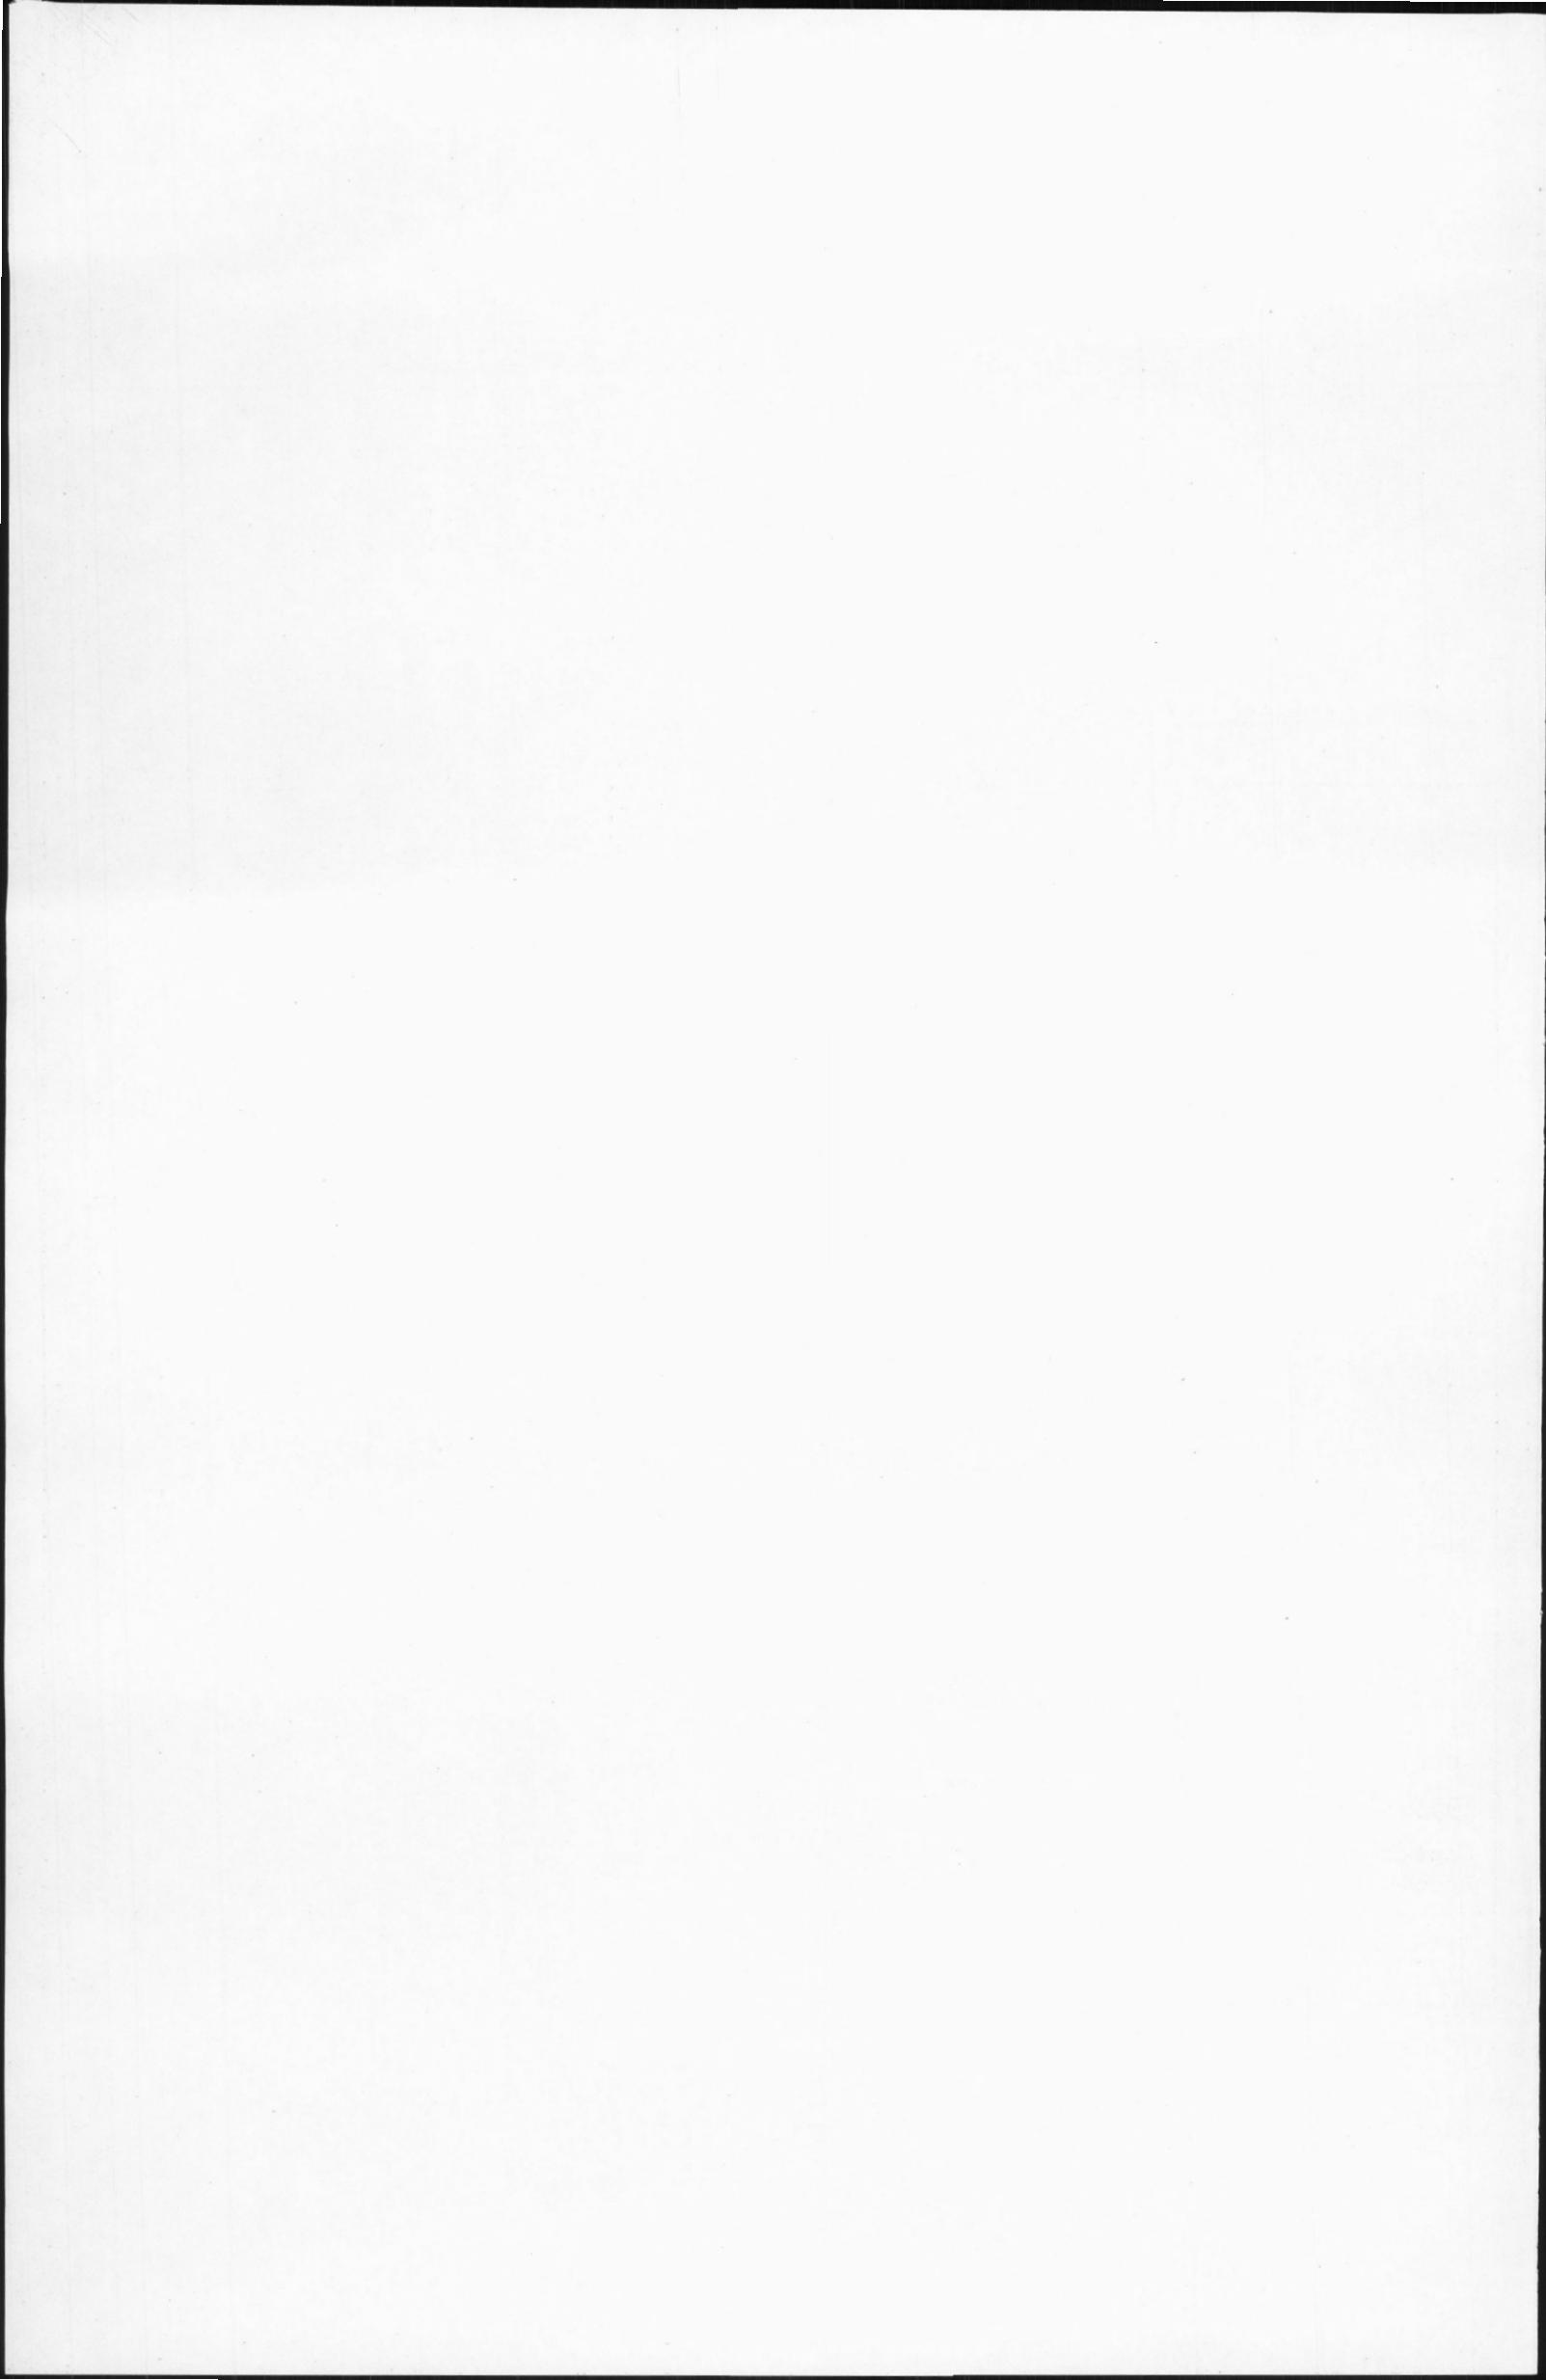

Of the 20,728 houses completed since September 1945 5,145 or 24.8 per cent were of brick, concrete etc; and 15,583 or 75.2 per cent were of wood etc. material.

The average recorded value of each house completed in Tasmania during December quarter 1953 was £3,781 for brick, concrete, etc., £2,286 for each house of wood and £1,538 for each fibro-cement house. The corresponding values in September quarter 1953 were £3,424 for brick, concrete, etc., £2,236 for wood and £2,000 for fibro-cement.

2. NEW HOUSES COMMENCED:

The number of new houses commenced during December quarter, 1953 was 595, a decrease of 88 compared with September quarter 1953.

Since July, 1945 a total of 22,802 new houses has been commenced in Tasmania.

NEW HOUSES UNDER CONSTRUCTION:

The number of new houses under construction at 31st December 1953, was 2,123, a decrease of 66 compared with the September figure of 2,189. Corresponding figures as at 31st December in previous years are as follows: 1945 - 546; 1946 - 1,193; 1947 - 1,847; 1948 - 2,161; 1949 - 3,073; 1950 - 3,447; 1951 - 3,264 and 1952 - 2,317.

The houses under construction at 31st December 1953 were distributed according to materials of outer walls as follows - Solid brick, concrete etc. 489 (23.0%), veneers 233 (11.0%); wood 1,277 (60.1%); prefabricated wood 23 (1.1%) and fibro-cement 101 (4.8%).

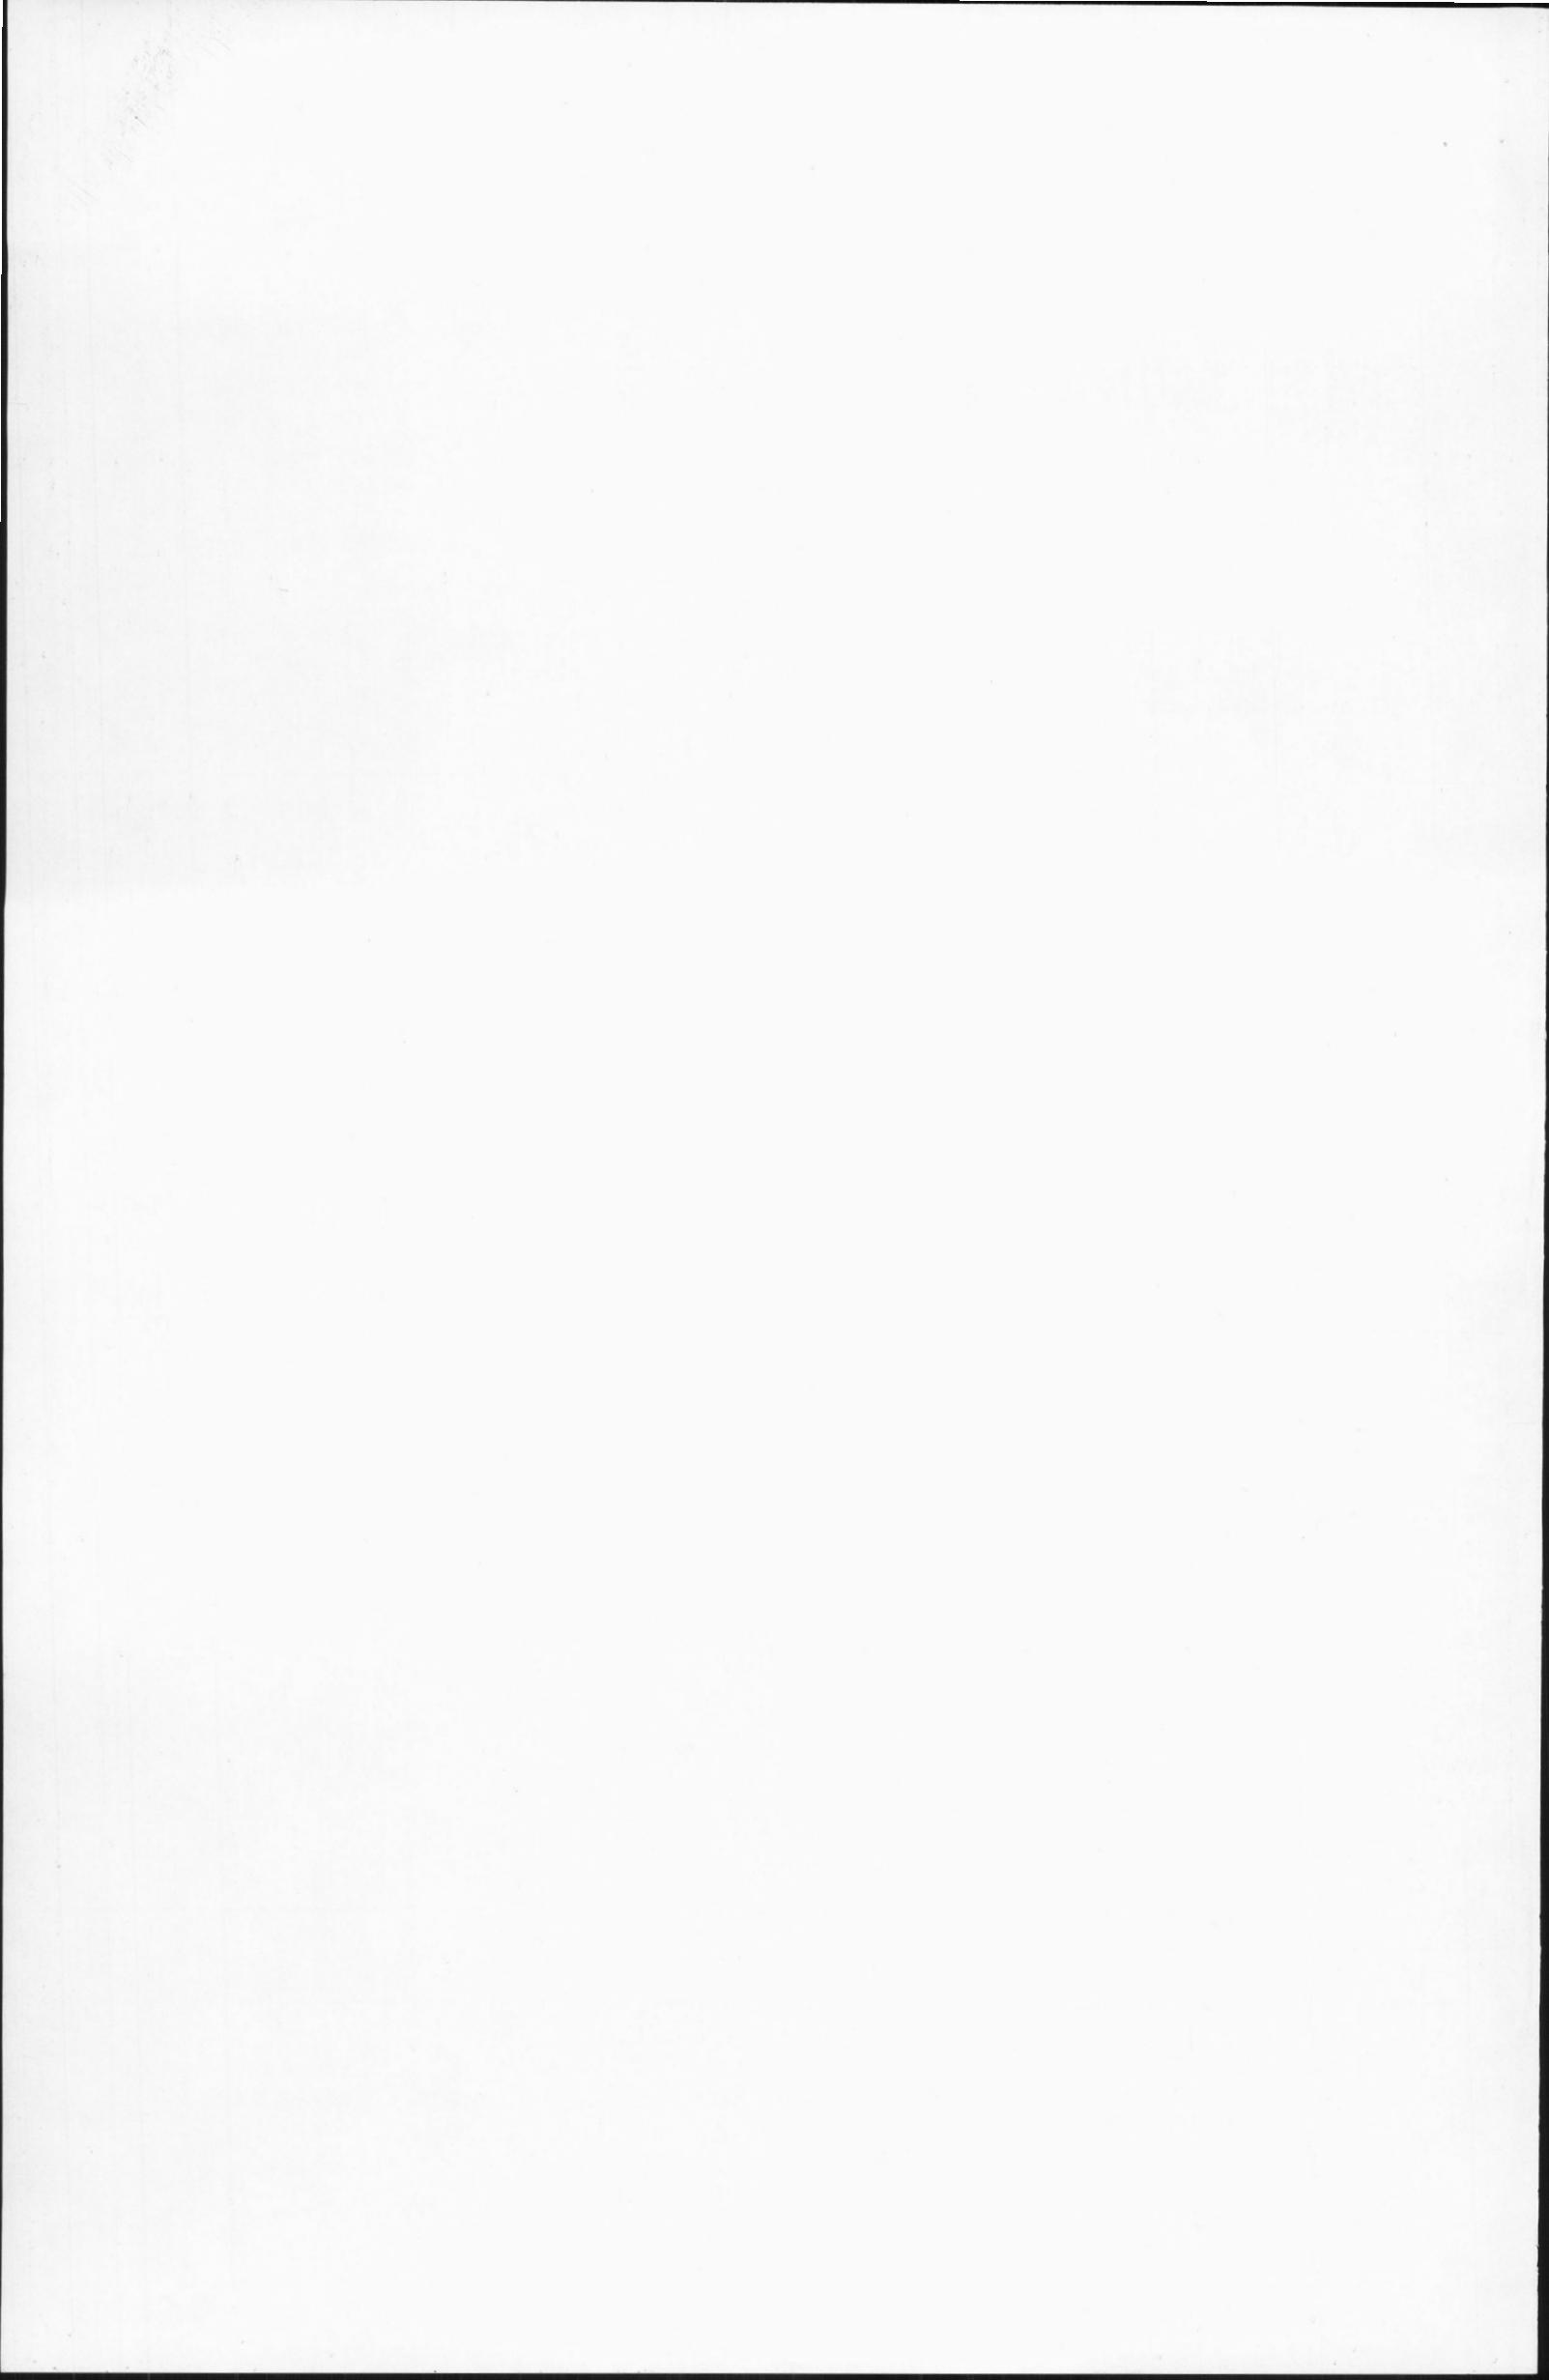

The following table shows in summary form, the number of houses commenced, completed and under construction for the years 1945-46 to 1952-53 and by quarters since 1950-51.

NEW HOUSES - TASMANIA.

NEW BUILDINGS (OTHER THAN HOUSES).

Note: Values quoted exclude the cost of land on which buildings were erected.

The value of new buildings (other than houses) completed during December quarter 1953, was £513,000 compared with £756,000 during September quarter 1953 and £516,000 during December quarter 1952. Five new factories valued at £75,000 were completed during the quarter. Other new buildings (included above) completed during the quarter comprised 2 schools, 1 clinic, 3 offices, 6 garages, service stations etc., 1 hospital, 1 church, 1 rail terminus, 3 warehouses and stores, and 16 others.

During the December quarter 1953, the value of new buildings (other than houses) commenced was £331,000 compared with £327,000 in September quarter 1953 and £326,000 in December quarter 1952. Construction of 3 new factories valued at £46,000 was commenced during the quarter ended 31st December 1953.

The value of new buildings (other than houses) under construction at 31st December 1953 was £5,383,000, a decrease of £151,000 compared with September quarter 1953. Comparative values as at 31st December in preceding years are as follows:- 1952 - £6,224,000; 1951 - £5,413,000; 1950 - £4,159,000; 1949 - £2,415,000; 1948 - £1,660,000; 1947 - £1,286,000; 1946 - £591,000; and 1945 - £314,000. The value of factories under construction at 31st December 1953 was £2,347,000 or 43.5 per cent of the total value of all buildings (other than houses) under construction at that date.

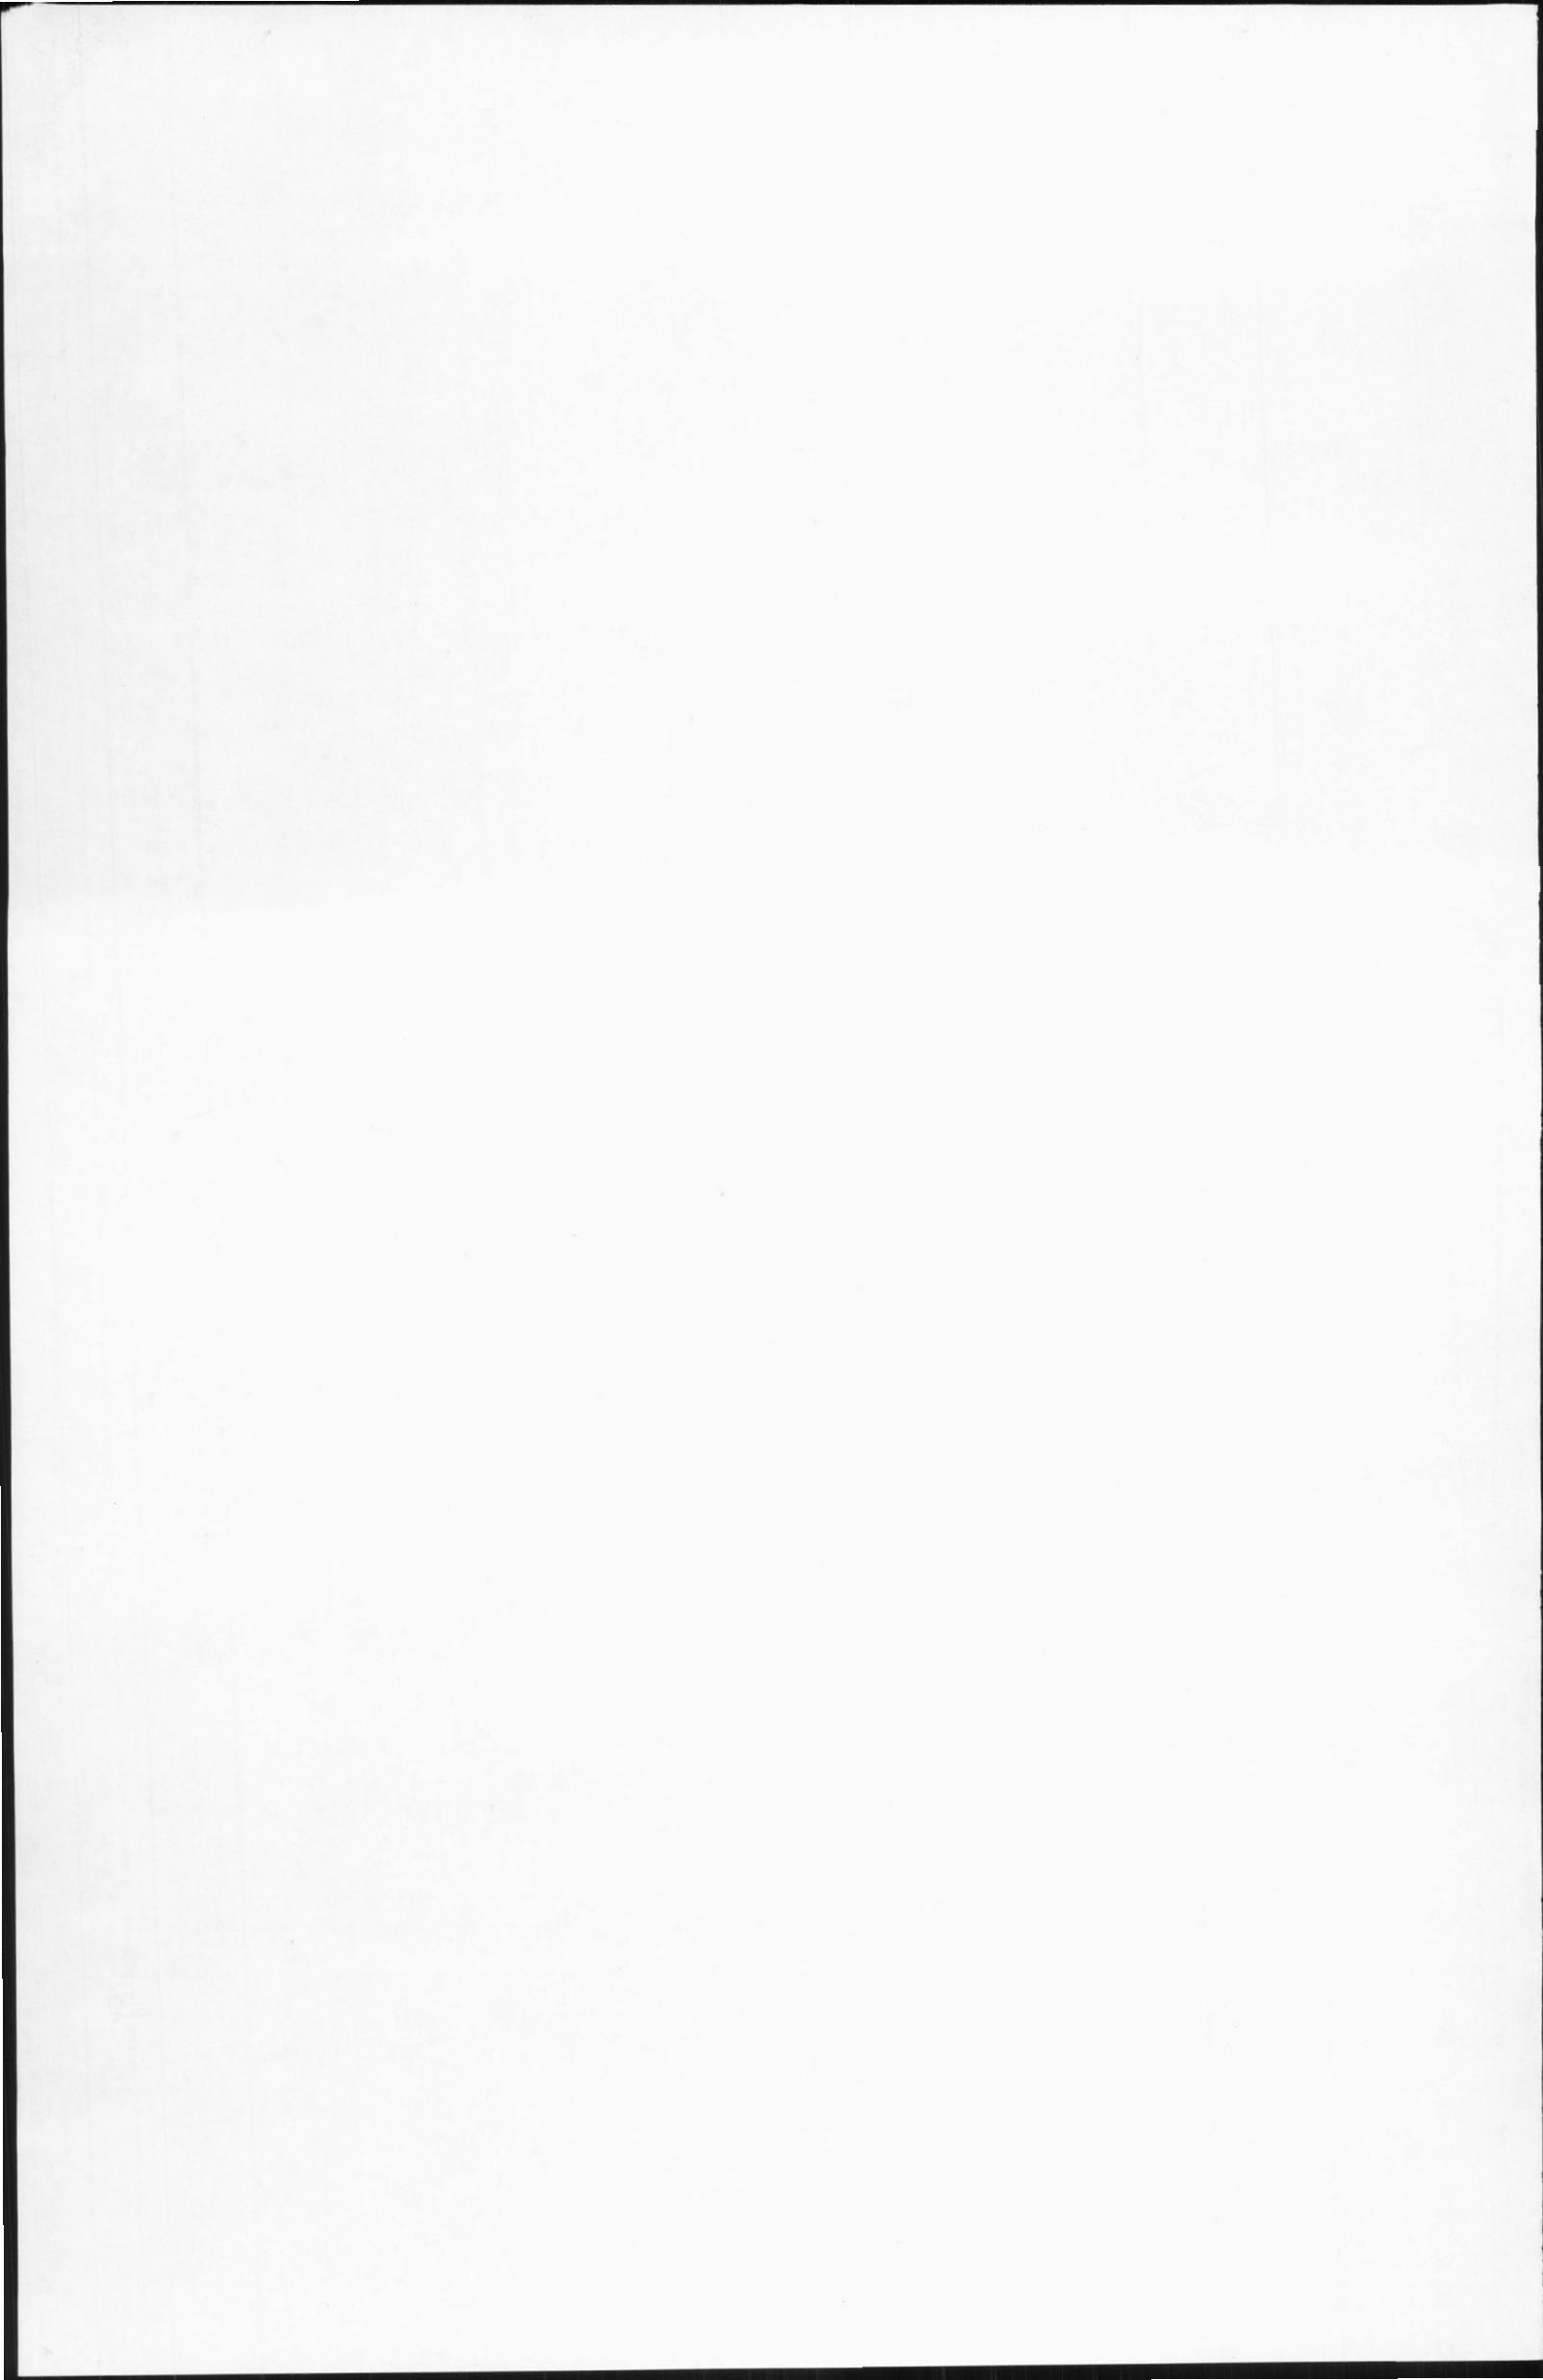

Progress made in the construction of new buildings (other than houses) is shown in the next table.

VALUE OF ALL BUILDINGS.

The value of all new buildings including houses completed in Tasmania during December quarter, 1953, was £2,223,000 a decrease of £60,000 compared with September 1953 and £477,000 less than the December 1952 figure. New houses valued at £1,710,000 comprised 76.9 per cent of the total value of completions.

The value of new buildings commenced during December quarter 1953, was £1,795,000 a decrease of £167,000 compared with September 1953 figure and £351,000 more than the December 1952 figure.

The value of new buildings under construction at 31st December 1953 was £10,801,000 a decrease of £20,300 compared with September 1953 figures.

The corresponding value at 31st December 1952 was £11,981,000

In comparing these values due allowance should be made for any movement in building costs.

The following table summarizes the value of all new buildings commenced, completed, and under construction since 30th June, 1946.

6. VALUE OF WORK DONE ON NEW BUILDINGS.

The value of work done on new buildings has been calculated from data collected on builders' returns. According to the information recorded of these returns, the value of work done during the December quarter, 1953, was £2,362,000 compared with £2,794,000 in September quarter 1953, and £2,555,000 in December 1952. Of the December quarter total, £1,747,000 or 73.7 per cent represented value of work done in respect of houses. Hobart and suburbs accounted for £1,976,000 or 41.3 per cent of the total value; Launceston and suburbs for £478,000 or 20.2 per cent and the rest of the State for £908,000 or 38.5 per cent.

For details of December quarter 1953 and comparative statements showing figures for each quarter since December quarter 1951, see the following page -

7. PERSONS WORKING ON NEW BUILDINGS.

Note: The figures quoted below include estimates for persons working on owner-built houses, but exclude principals and their employees engaged solely on alterations and additions.

There were 5,366 persons including 1,357 working principals engaged on the construction of new buildings at 31st December 1953. Of these 2,677 were carpenters by trade, 361 bricklayers, and 955 builders' labourers.

The number of persons engaged at 31st December each year is as follows:- 1946 - 3,099; 1947 - 4,063; 1948 - 4,849; 1949 - 5,901; 1950 - 6,821; 1951 - 7,321; 1952 - 5,865 and 1953 - 5,366. Of the latter number, 3,859 were working on private contract jobs, 750 on owner built houses and 757 on Government day Labour projects. The returns indicated that 2,708 were working on new houses, 1,480 on other new buildings, 475 on alterations and additions to houses, 363 on alterations and additions to other buildings, and 340 on repair and maintenance work.

Details of the number of workers classified according to type of occupation at 30th June 1946 and earlier dates are as follows:

(a) Actually working on jobs.

3. DEFINITIONS OF TERMS USED.

Owner-Builder: For the purpose of this Bulletin, an owner-builder is a person who is actually building his own house or is having his house built under his own direction without the services of a Contractor.

Commenced: A building is regarded as having been commenced when work on foundation has begun. Owing to the difficulty of defining the exact point that this represents in building operations, it is probable that interpretations placed upon it by informants are not entirely uniform.

Completed: A building is regarded as having been completed when the builder has fulfilled the terms of the contract. As with commencements, the interpretations placed upon this definition may vary.

Under Construction: A building remaining uncompleted at the end of a period is regarded as being under construction regardless of whether construction was actively proceeding on that particular date.

Employment: The figure of employment relate to persons actually working on new buildings on a specific day. They include working principals, employees, men working as, or for, sub-contractors and men temporarily laid off on account of weather. In addition, they include some employees engaged on alterations, additions, renovations or repairs to buildings when these jobs are undertaken by a contractor who builds new buildings. The figures include estimates for persons working on owner-built houses.

Values: All values shown exclude the value of land and represent the estimated value of buildings on completion.

All figures in this Bulletin relate to the operations of private contractors, Government Authorities and owner-builders.

Figures relate only to the operations of persons who build new buildings.

Alterations, additions, renovations and repairs to buildings are excluded, because of the difficulty in obtaining complete lists of persons who engaged in those operations.

Figures for houses exclude converted military huts, flats, and shop dwellings. Some houses built on farms are excluded but these do not affect the figures materially.
